

Hong Kong Pharmacy Conference (Day Two - 24 January 2010)

Beginning with Motorola and GE in the nineties Six Sigma has been producing astonishing results taking companies from average to excellence. Six Sigma is not process reengineering; it goes beyond total quality. World class companies and organizations in the healthcare industries are deploying Six Sigma to breakthrough and continuously improve, ...

Six Sigma in a Flash

How will Six Sigma affect you as a pharmacist?

Come, explore and get excited in the Six Sigma Gameshop.

The Gameshop

A 90 minute parallel track session in the form of an interactive gameshop with input, sharing, games, quiz and discussions

Your views will also be collected to help understanding and planning further Six Sigma activities for pharmacists.
